

Innovative Arts is dedicated to providing a transformative and professional experience. Innovative's revolutionary production concept and rehearsal structure provides opportunity and training for every student to succeed. Multiple casts allows every student to have a starring role and equal training. The Innovative team strives to help each individual student grow as a performer and person.

The founders, Nathan and Sophie McLeod, started Innovative Arts in 2013 with the belief that everyone has the potential to star in a major musical - with the right training. Nathan, Sophie, and the entire Innovative Staff hope to support and challenge today's youth to become mature, optimistic, compassionate and responsible individuals.
